New Features

These new reports are the result of user requests.

Finance > Reports

- **** Social Security Number Verification:** This report can be run for the tax year or a designated date range and is generated in the format required for upload to the SSA by registered users. WEB-2994

Students > Reports

- **Renaissance Extract:** This report for Renaissance Learning can be run for a single campus. WEB-2728

Improvements

Admin

- **Admin > Data Management > Student I/O > Student Import Defn:** Added the option to import student phone number and email addresses. The following fields were added — primary phone type, primary phone number, and primary email address. WEB-2917
This improvement is the result of a user request.

Finance

- **General Ledger > Chart of Accounts > Account Codes:** Restricted the component used to designate the district — most often Sub-Object 3 — to the organization's district. WEB-2940
- **** Payroll > Benefit Programs > Offering-based:** Added a sort order to program offerings so the options are displayed in the correct order when adding the benefit to an employee. WEB-2916
- **Reports**
 - **** Net zero checks:** Updated the following reports to correctly net zero checks — Vendor Transactions Extract, Vendor Transactions by Payment, Vendor Transactions Detail, and Vendor Transactions Summary. WEB-2957
 - **** Vendor List:** Added the 1099 box number to this report, and added the 1099 Box Number filter that allows you to run the report for all, none, or selected 1099 box numbers. WEB-2996

Students

- **Students > Student Manager > Enrollment > Course Schedule:** Improved the error message presented when trying to enroll a student in a class in which the student is already enrolled. WEB-2932

Bugs Fixed

Admin

- Admin > Automation > Jobs: Resolved an issue causing the automated Income Statement to fail due to the scheduler not picking the correct date. WEB-2920

Compliance > State > Texas > TRAQS/TEAMS

- Employee Data: Fixed a bug that was causing contracted employees paid out of AP rather than Payroll to generate ED20s. WEB-3066
- Payroll Data
 - State Position (04): Above statutory minimum is now correctly NOT being calculated for employees with state position (04) positions. WEB-3064
 - TRS Public Education Employer Contribution (Non-OASDI) is now correctly calculated for non-exempt employees. WEB-3044
 - TRS State Eligibility calculations: Above statutory minimum is now calculated correctly for employees who have different position types on the contract and position. WEB-3049

Finance

- **Assets > Asset Catalog**: Long descriptions now wrap so data no longer runs off the page. WEB-3040
- **Banking & Receipts > Banking Setup > Chk Stock Configs**: Added error checking to the signature upload to present an error message if the user tries to upload a file other than an image file. WEB-2842
- **Reports**
 - Expenditures > Ledger Detail: Fixed a bug causing this report to error out when run for the last fiscal year. WEB-3020
 - Payroll Distribution - By Batch: This report no longer fails. WEB-3038
 - Workman's Compensation: This report now correctly includes all qualified wages where before it was excluding supplemental wages when the category for the supplemental wages was different from the category for the base wages. WEB-3021

Students

- **Grades > Report Cards**: Fixed the Search for Additional Students feature. WEB-3080
- **Reports**
 - At Risk Form: This report now pulls students who have criteria 14 set to Yes. Data was being pulled for the PEIMS submission, just not included on the report. WEB-3061
 - Missing Assignments: Fixed the Course Offering and Student filters to allow for running the report for all courses for a single student. WEB-2918
 - Special Education Roster: This report now generates data when the campus, grade level, and track filters are set to All. WEB-3015
 - TREx XML (new): District name is now limited to 34 characters to prevent errors in uploading the file. WEB-3059
- **Students > Student Manager > Special Ed > Residential Facility Residency History**: Prior instructional setting is now being saved correctly. WEB-3079
