New Features

Compliance

- Reports > Staff Roles & Responsibilities: This report can be run for an effective date and sorted by employee or role. It lists the employee name, role, campus number, staff & state service IDs, minutes, reportable flag, population served, instructional setting, class type, program intent, and contract FTE. This report was added as a result of client requests on the Idea Portal. WEB-3640

Finance

- HR > Staff Manager: Added the ability to prevent a contract from being included on the Service Records and Service Records - Detail reports. Use the Suppress flag in Payroll > Employment Contracts to exclude a contract from the service record. WEB-3583
- Reports
 - Benefit Programs Configuration: This report can be run for active/inactive/all benefit programs and for selected or all benefit programs. It includes whether the program is election-, offering-, or subscription-based. WEB-2230
 - Staff Demographic Release Extract: This extract can be run for a selected date and includes the following fields — campus, first/middle/last name, position, authorized to release demographic information flag, home address, school email, personal email, personal phone number, gender, race/ethnicity, hire date, years of experience, primary current salary, and overall current salary. WEB-514

Students > Reports

- Edlio Engage Extract: This extract can be generated for selected campuses with the following file types — student, teacher, class, class roster, and parent contacts. WEB-3672
- Rank One Sport Extract: This extract includes all students in grades 7-12 with their gender, date of birth, age, grade, ID, address, email, phone, guardians 1-2 with their contact information, and emergency contact information. WEB-3658
- Seesaw Extract: Parameters are sign in mode — configured, class code, Google, & email — campus, effective date, and the create password flag. WEB-3680

Improvements

Admin > Admin

- Data Management > Student I/O > Student Import Defn: Added Record Type Location field and Has Header Row and Use Header XWalk flags to allow for importing a CSV file that includes different record types, similar to importing an Excel file. When Has Header Row is set to true, the user can add column header text to map to the import file headers. WEB-3691 WEB-3692
- Security: Added the ability to grant access to a non-admin to be able to manage automation jobs. An admin user will create a role in Auth Roles with the Allow Automation Jobs privilege and then edit Users to add the automation jobs role on the Authorization tab. WEB-3681

Finance

- TRS Adjustment Details Report: When run for all adjustment categories, the report now provides subtotals by category. WEB-3641

Students > Reports

- Destiny Extract: Modified this extract to enable the inclusion of user name and password. To set up this modification, go to Admin > Reports > Report Admin > Built In Reports > Destiny Extract. On the Report Values tab, set GenerateUserName and GeneratePassword to true. WEB-3670
- Skills Report Cards: Added the school year to the SOE Skills template. This report was added as a result of client requests on the Idea Portal. WEB-3724
- TSDS Unique Identifier Applicant Extract: Added this extract to the Third Party Student Extracts category in the Reports list and removed the dependency on gender. WEB-3754

Bugs Fixed

Compliance > State > Texas > TSDS

- Class Roster > Fall Submission: Fixed issues with the InterchangeEducationOrganizationExtension and InterchangeMasterScheduleExtension reporting data incorrectly. WEB-3778
- PEIMS > Extended Year
 - InterchangeEducationOrganizationExtension: Now correctly pulls expanded learning opportunities. WEB-3728
 - InterchangeStudentEnrollmentExtension: Fixed to pull only courses with course enrollments on the last day of the school year. WEB-3708

Students

- Students > Student Manager > Contact Info: Contact records that are not linked to a student can now be deleted. WEB-3755
- Reports
 - At Risk Form: Fixed a bug causing the report to error out when certain data wouldn't fit in its column. WEB-3770
 - Authorized Pick Up Card: Students without a family unit are now included on this report. WEB-3760
 - Crisis Code Students: This report now generated correctly even if a student has multiple crisis codes. WEB-3752
 - Special Education Roster: This report now correctly applies the effective date to prevent including duplicate records. WEB-3727
