New Features

Admin > Admin > Data Management > Student I/O

- Student Imports: A new permission for Admin users allows them to edit the import key (SSN, Local ID, etc.) when the record is pending or partial. WEB-3655
- Student Import Defn: Updated the CSV definition to support different record types, similar to importing an Excel file. WEB-3691

Compliance > Federal

- IRS 1099: Added the ability to print 1099-MISC & 1099-NEC on blank forms. WEB-3847

Finance

- Reports > Purchase Order Encumbrance: This new report includes all POs with approved or receiving statuses along with their original and remaining encumbrances. It was created as a result of a client request. WEB-3823

Students

- Reports
 - Amplify Extract: Added an extract for students, staff, & classes that can be generated for all or selected campuses & grade levels. WEB-3747
 - Clever Extract: Added the staff file that includes all staff except teachers. WEB-3788
- Scheduling > Schedule Manager > Calendar: New attendance model field is used to designate default Present code by date for ADA attendance. WEB-3824

Improvements

Compliance > Federal

- IRS 1099: Updated the 1099 Details form to handle the new 1099-NEC form and the rearranged 1099-MISC form. WEB-3146
- IRS W2
 - Added the ability to create a W-2 from this window. WEB-3871
 - Qualified sick and family leave wages paid under the Families First Coronavirus Response Act are now reported in Box 14. WEB-3761
 - State fields have been added to the W-2 form. WEB-3131

Students

- Reports > TSDS Unique Identifier Applicant Extract: Added the value Z for the Race and Ethnicity indicator to be used in the Charter School Waitlist file. WEB-3796
- Students > Registration > Applications: Added the Deleted Applicants filter. WEB-3845

Bugs Fixed

Admin > Admin

- Automation > Jobs: Fixed logic for scheduling periodic jobs, such as monthly jobs, so as to ignore the current date when considering the next run. WEB-3750
- Data Management > Application I/O
 - Stu. App Import Defn
 - Added the codes for gender and date of birth to all student application import definitions. WEB-3757
 - UID import for Applicants: Fixed a bug so UIDs are now correctly imported. WEB-3822
 - Student App Imports > SOS Applicant: Fixed an issue causing the import to fail. WEB-3860

Compliance > State > Texas

- TRAQS/TEAMS: Fixed the file to include supplemental batches. WEB-3899
- TSDS > Fall PEIMS
 - Adult Previous Attendance Indicator is no longer pulling students under age 18. WEB-3896
 - Student Extension now includes graduates whose graduation date falls on the last date of the extract. WEB-3897

Finance > Reports

- Fixed Asset Ledger Reconciliation
 - Fixed the report to include only fixed assets with an acquisition date less than or equal to the end period of the general ledger. WEB-3850
 - Fixed two issues causing the report to include inaccurate data. WEB-3876
- Vendor Aged Payables: Fixed an issue with the effective date that was preventing some unpaid bills from being included. WEB-3833

Students

- Grades > Grade Book: Fixed display issues in this window. WEB-3882
- Reports
 - Attendance Letter: This report no longer fails with a fatal error. WEB-3846
 - Clever Extract: The Teacher extract now correctly pulls only teachers from the schedules instead of pulling all staff. The Enrollment file now correctly excludes withdrawn students. WEB-3818
 - Mosaic POS Extract: This extract now includes students only once based on their ADA codes as of the effective date of the extract. WEB-3854
 - Schoology 2: This extract now respects district. WEB-3830
