WebSmart 3.8.14.0 Release Notes

2025-Q3 Update Released: 07/25/2025

Harris School Solutions has an issue tracking system to monitor program enhancements and defects. The WEBSMART numbers refer to the issues in that system that were resolved in this release.
To submit an idea for product enhancements/improvements, click **Here**.

Bug Fix

Compliance Reporting

WSDEV-1186

Corrected an issue in EDFI CourseTranscriptsTXT where the Summer School Indicator was not reporting true for summer school courses. The summer school indicator is now reporting true for Extended School Year reporting.

WSDEV-1218

Corrected an issue in EDFI StudentSpecialEducationProgramAssociation where the AssessmentResultObtained data element was reporting when the ToolOrAssessmentUsed was 00. For SELA reporting, the AssessmentResultObtained will now only be reported when ToolOrAssessmentUsed is not 00.

WSDEV-1191

Corrected an issue with EDFI ReportingPeriodExt not reporting correctly for Summer School Calendars. EDFI ReportingPeriodExt is now reporting correctly for Extended School Year ADSY and Summer School Flex.

WSDEV-1220

Corrected an issue with EDFI StudentSpecialEducationProgramAssociation where the SELA Eligibility Date was not reporting. The eligibility date is now being reported.

WSDEV-1224

Corrected an issue with RFT information duplicating in EDFI StudentSpecialEducationProgramAssociation. Multiple RFT dates can now be reported without duplicating.

WSDEV-1216

Corrected EDFI FlexibleBilingualESLProgramReportingPeriodAttendance to report FlexTotalEligBilingualESLDaysPresent as 1 when the minutes to day conversion is less than a full day.

WSDEV-1227

Corrected issues with EDFI StudentAcademics where term 1 records were not generating for some students. Term 1 records are now generating for all students.

Student Management

WSDEV-1219

Corrected an issue in Course Enrollment where the pass/fail status selection dropdown was not visible for some student courses. The pass/fail status selection dropdown is now visible for these student courses.

Improvement

Compliance Reporting

WSDEV-1211

A non-district/school ID data element In Special Education--> Child Find menu has been added for Campus of Evaluation. This is being used for EDFI Child Find reporting.

WSDEV-1184

In Admin-Instructional Period-Annual Information- Attendance Track tab, a new checkbox, Reportable, has been added to the Summer School Attendance Track. When the Reportable checkbox is checked, the Summer School information will be reported to EDFI ; otherwise, Summer School information will be for tracking purposes only and will not report to EDFI.

WSDEV-1217

Made changes to the reportable Summer School Attendance tracks to allow them to be reported in EDFI Calendars using the new EDFI Calendar Type #17 for Extended School Year.

New Feature

Attendance

WSDEV-1190

Added ability to track ESY Summer Attendance and corrected an issue where ESY Summer Attendance now works with the ESY Enrollment date range rather than the ADA enrollment date range.
