

Harris School Solutions has an issue tracking system to monitor program enhancements and defects. The WEBSMART numbers refer to the issues in that system that were resolved in this release.

To submit an idea for product enhancements/improvements, click [Here](#).

Bug Fix

Compliance Reporting

WSDEV-1241

Corrected an issue in EDFI StudentSchoolAssociation not generating ESY school information for students. EDFI StudentSchoolAssociation is now generating ESY enrollment information.

WSDEV-1252

Corrected an issue where Flex Attendance was not reporting correctly in EDFI StudentSchoolAttendanceEvent. Flex attendance is now reporting correctly with AttendanceEventCategory #7

WSDEV-1250

Corrected an issue where Student Emergent Bilingual information was not reporting correctly in EDFI StudentLanguageInstructionProgramAssociation. Emergent Bilingual students who have a parental permission or are receiving a Language Program Service will report in EDFI StudentLanguageInstructionProgramAssociation

WSDEV-1262

Corrected an issue where summer school non-reportable courses were reporting in EDFI StudentSectionAssociation incorrectly. Non-reportable summer school courses are no longer reporting in EDFI StudentSectionAssociation.

WSDEV-1208

Corrected an issue with EDFI BasicReportingPeriodAttendance and CTEProgramReportingPeriodAttendance reporting the TotalEligibleDays incorrectly. TotalEligibleDays for both entities are now reporting correctly.

WSDEV-1209

Corrected an Issue with EDFI ReportingPeriodEXT not reporting ReportingPeriodDescriptor #7 correctly for Summer School enrollment.

WSDEV-1244

Corrected an Issue with EDFI SpecialEducationProgramReportingPeriodAttendance to remove absences from the Eligible-Days-Present-In-Instr-Setting total

WSDEV-1246

Corrected an issue with ESY Student attendance information duplicating in EDFI StudentProgramAttendanceEvent. ESY Attendance is no longer duplicating for EDFI StudentProgramAttendanceEvent.

WSDEV-1263

Corrected an issue with Summer School Attendance Track information not saving correctly when marked as reportable. The Summer School Attendance track can now be saved successfully when marked as reportable.

WSDEV-1215

Corrected issues with EDFI FlexibleSpecialEducationReportingPeriodAttendance reporting 0 minutes and including Instructional Setting #40. Minutes <1 will now default to 1 and Instructional Setting #40 is no longer being reported in this entity

WSDEV-1242

Removed non-reportable Summer School track information from EDFI.

Student Reporting

WSDEV-1245

Corrected an issue with ADA Calendar Detail Report including multi-district information. The ADA Calendar Report will now display only data for the selected District.

Summer School

WSDEV-1272

Corrected an error when creating a summer School calendar. Summer school calendars can now be created without an error.

Improvement

Compliance Reporting

WSDEV-1204

Made revisions and deletions to EDFI Descriptors per TEA guidance

Enrollment

WSDEV-1247

A date range validation has been added to the ESY Enrollment to validate the enrollment start and end dates are within

Student Reporting

WSDEV-1256

Added an ID Type parameter to the following Reports to assist with State Reporting comparison: ADA Attendance Detail Report, OFSDP Report, and Period Absence Report

Support Task

Purchasing

WEBSMART-2982

Corrected an error when adding a primary signatory with an apostrophe in the HR name record. Primary signatories can now be added when apostrophes exist in their HR name record.
