Bug Fix

Compliance Reporting

WEBSMART-3005

An issue with the PET (UID Enrollment Event) file generation for the multi districts has been resolved. The system now respects the separation between districts, ensuring that data is correctly pulled for each district independently and allows the file to be created on the same day for all districts.

WSDEV-1309

Corrected an issue with the Dyslexia Risk Screening Exemption display. The screening exemption dropdown now only displays when Dyslexia Risk is set to 03, as per the correct business logic.

WSDEV-1304

Corrected issue with missing EDFI StudentEducationOrganization Dyslexia Services. Multiple Dyslexia Services are now being reported.

WSDEV-1308

The EDFI StudentEducationOrganizationAssociation entity has been updated to only include current year Emergent Bilingual information. This change resolves level 1 errors that were being generated in the 2026.2.0 version when historical dates were reported.

Reports

WSDEV-1275

An issue has been resolved where the Student Emails and Phone Numbers report was generating an error in Excel when using multiple grade levels for filtering. The report now runs correctly for multiple grade level selections in both PDF and Excel formats.

WEBSMART-2997

Corrected an issue affecting the Homeroom Sections and Teacher Schedule report. The report now correctly respects the selected district when generating data, preventing the inclusion of information from multiple districts. Additionally, the sorting order for the Homeroom section has been improved for better clarity and usability.

WSDEV-1336

Corrected an issue with the Dyslexia Report incorrectly reporting the dyslexia status for certain students. The report now correctly identifies and includes students with dyslexia for the appropriate school years.

WSDEV-1303

Corrections were made to the Dyslexia Reports to align with the new EDFI reporting changes.

Improvement

Charter First Dashboard

WSDEV-1300

The Charter First Dashboard has been updated to allow administrators to waive indicators. A new Waivers tab has been added to the KPI Viewer, accessible only to admin users, where they can set the waiver status for each of the 21 indicators to be Yes/No.

Compliance Reporting

WSDEV-1233

A new data element, LocalStudentId, has been added to the StudentApplication entity for the Charter School Waitlist Collection. This optional field will contain the local ID where applicable, while the existing studentID in this entity will continue to be used for the SSN

WSDEV-1331

Improvements to Dyslexia Services have been made to align with EDFI StudentEducationOrganizationAssociation begin and end date reporting.

WSDEV-1221

Improvements were made to accommodate EDFI Dyslexia, Dyslexia Services, and Dyslexia Risk begin and end date reporting.

WSDEV-1273

Improvements were made to allow for Homeless begin dates to be tracked within the school year. A new 'Homeless Status' link has been added under Student MGR -> Programs/Statuses, replacing the previous location under Enrollment->Other Annual Information. Various reports have been updated to reflect this change in reporting homeless status.

WSDEV-1156

Improvements were made to the EDFI StudentEducationOrganizationAssociation based on the 2026.2.1 change log. Adult Previous Attendance studentCharacteristics #16 has been removed and replaced with AdultPreviousAttendanceSet Common Type. Additionally, changes have been made to the AcceleratedInstructionSet, including revised domain values for assigned and completed hours, and RatioWiaverListProductUsed has been changed to optional.

WSDEV-1167

The ECSE Service Reason descriptor has been updated with changes to the C358 Descriptor table. The descriptor '03' has been changed to 'Child Turned Six Years Old', and descriptors '04-05' have been removed.

WSDEV-1315

The EDFI StudentLanguageInstructionProgramAssociation entity has been updated for the 2025-2026 school year. These updates include changes to the LangInstruProgramSvc Descriptor and BilingualESLFunding Descriptor to align with the legislative changes.

WSDEV-1339

The Special Education Program Reporting Period Attendance has been improved for both the 2024-2025 and 2025-2026 school years. All Speech services (Speech Only & Speech +) are now reported in EDFI SpecialEducationProgramReportingPeriodAttendance using instructional setting 00. This change ensures accurate reporting for students in all instructional settings with SPED Speech services #24 or #25.

WSDEV-1321

Two new At Risk Codes have been added to align with the EDFI legislative changes. Code 16 and 17.

Reports

WSDEV-1325

Improvements to the FSP Counts Report have been made to align with the EDFI legislative changes for Alternative Methods Programs

WSDEV-1326

Improvements to the FSP Program Detail Report have been made to align with the new EDFI legislative changes for Alternative Methods Programs

WSDEV-1327

Improvements to the LEP Verification Report have been made to align with the EDFI legislative changes for Alternative Methods Programs

WSDEV-1323

The Alternative Language Programs have been updated to reflect legislative changes. This update includes the retirement of Alt BIL Programs 046 and Alt ESL Program 004, and the addition of new Alt Programs: BIL 047-050 and ESL 005 & 006. The Student Manager UI has been modified to display state equivalent codes 042-050 for Bilingual and 002-006 for ESL programs.

Scheduling

WEBSMART-3003

Schedule date corrections have been implemented. This update resolves issues with invalid teacher assignments providing a user friendly error message which now includes the course offering ID and section number and ensures correct calendar cycles which is crucial for accurate teacher assignments and EdFi rule compliance.

New Feature

Student Management

WEBSMART-2124

- 💡 A new feature has been added to Student MGR- Demographics to allow scanning and accessing student photos within Websmart. This functionality will enable users to easily upload and view student photographs directly in the system.

Compliance Reporting

WEBSMART-3014

Corrected an issue with missing ADSY Staff and Staff Section Teacher information. The information is now reporting in EDFI for teachers who worked during Additional Days School Year (ADSY) periods.

WEBSMART-3018

Corrected an issue with the Calendars entity duplicating in EDFI.

Staff Management

WEBSMART-3012

Corrected an issue regarding the duplication of employee accounts in the Staff Manager.
