Bug Fix

Compliance Reporting

WSDEV-1192

A correction in TREx has been made to not pull IBC PostSecondaryCertLicensureResult when blank for dates prior to 09/01/2022 . The system now correctly handles historical IBC entries, preventing file failures due to blank results.

WSDEV-1354

Several issues with EDFI StudentLanguageInstructionProgramAssociation entity have been addressed. These include correcting invalid permission codes, preventing duplicate language instruction program services, and ensuring proper reporting of bilingual education statuses.

TREx

WSDEV-1347

Corrected an error being generated in TREx due to the recent Alternative language code changes. TREx has been updated and will report the Alternative Languages using the new codes based on the legislative changes.

Federal/State Regulation

IRS 1099

WSDEV-1226

Comprehensive updates have been made to various tax forms for the 2025 tax year. These include reprogramming for forms 1096, 1099-Misc, and 1099-Nec, as well as updates to W2 forms. The changes ensure compliance with the latest IRS regulations and reporting requirements. Also, Tax tables have been updated for the 2026 tax year based on the current 2025 tax table with provisions for further updates if changes occur.

Improvement

Compliance Reporting

WSDEV-1163

EDFI StudentSpecialEducationProgramAssociation entity has been updated to include the 2026.1.1 changes which include the new SPED data elements and the School reference had been updated to the LocalEducationOrganizationID.

WSDEV-1312

JROTC course CTE Tiered Weights have been updated for the next FSP program reporting. JROTC 1 and 2 now have a weight of 1.28, while JROTC 3 and 4 have a weight of 1.47. This change ensures accurate funding calculations for JROTC programs.

WSDEV-1333

The Census Block functionality has been updated with a corrected API URL. This fix ensures accurate geocoding and census block group assignment for addresses. The update includes both the primary GEOUrl and the secondary CensusBlockUrl for comprehensive address processing.

Student Reporting

WSDEV-1355

The At Risk Reports have been updated to include two new At Risk codes as per legislative changes. These additions have been implemented in the At Risk Form, At Risk Summary, and At Risk validation reports to ensure comprehensive tracking of at-risk students.

WSDEV-1330

The Student Detail report has been updated and renamed. The changes incorporate new funding codes and Alternative Language Service Program codes and no longer use parental permission logic for Alternative language crosswalk.

TREX

WSDEV-1349

Alternative Language legislative changes have been implemented for TREx 25-26. Codes 01 and 02 have been removed for the 25-26 school year, while new codes 05, 06, 47, 48, 49, and 50 have been added. These modifications reflect updated language classification standards.

WSDEV-1351

TREx 25-26 has been updated with legislative changes for Disciplinary Action, including modifications to DisciplinaryActionReason, DisciplinaryActionCode, DisciplinaryLengthReasonCode, and BehaviorLocationCode. These updates ensure compliance with the latest regulatory requirements for disciplinary reporting.

WSDEV-1352

TREx 25-26 has been updated with legislative changes for the IBC Reimbursement Number. These updates ensure compliance with the latest regulatory requirements for reporting.

Research

Student Reporting

WSDEV-1345

An investigation regarding discrepancies in the Residential Tracker Reports has been completed. The research focused on understanding why some students were missing from reports, why there were duplicate records, and why exit dates were not consistently reported across different reports. Corrections to the reports have been made to improve the accuracy and reliability of residential facility tracking.

Automation

WEBSMART-3023

An issue with the Census Block Job has been identified and corrected. The job was not identifying students missing a census block that needed processing, and it was affecting the ability to update census block information for the entire schools. The fix will now ensure proper identification and processing of students with missing census block data.
