Bug Fix

Compliance Reporting

WSDEV-1384

A fix has been implemented for the EDFI StaffSection to omit reporting when the number of students in a class is zero, with exceptions for specific scenarios such as ECDS testing and homeroom sections. This change applies to both PEIMS Fall and Class Roster Promotion Business Rules.

WSDEV-1228

The reporting of NumberofDaysTaught and MinutesTaught for PE classes in EDFI StaffSection has been corrected. The system will now accurately report these values based on the hierarchy of individual section details, schedule PE attributes, and course catalog attributes.

Student Management

WSDEV-1371

The assignment of At-Risk codes has been corrected, particularly for Foster Care (code 11) and Residential Treatment (code 13). The system will now properly assign and remove these codes based on the student's status changes.

Student Reporting

WSDEV-1381

The Principal/Superintendent report has been updated to correctly calculate the Early Ed reporting student sectors to accurately reflect the required criteria with the new Alternative Language programs

WSDEV-1376

The FSP 6-week report has been updated to correctly pull the start date for regular calendars (types 1-15 and 18) instead of ADSY calendar track dates. Additionally, the Early Ed reporting for combined student sectors has been corrected to accurately reflect the required criteria with the new Alternative Language programs.

WSDEV-1353

The PK Eligibility and Funding Report has been fixed to prevent duplicate reporting of students. Previously, some students were being reported multiple times with the same data, which has now been resolved to ensure accurate reporting

Improvement

Compliance Reporting

WSDEV-1313

The Permanent Record for Industry-Based Certifications (IBC) has been updated with a new data element, IBCBackgroundCheckCost. This addition will be reflected in the Student MGR-PRM Industry Certification/Licensure Menu and relevant reports, including the EDFI StudentAcademicRecord entity.

WSDEV-1380

The StudentAcademicRecord entity has been updated to support multiple Associate Degrees. The Permanent Record UI now includes the ability to add and edit multiple Associate Degrees, and the information will be reflected in various reports including the Academic Achievement Record and TREx.

WSDEV-1161

The StudentAcademicRecord entity has been updated with new common types for various data elements, including EndorsementPursuing, IndividualGraduationCommitteeReview, and AssociateDegreeIndicator. New sets such as GraduationProgramParticipationSet and IndividualGraduationCommitteeReviewSet have been added to improve data organization and reporting.

WSDEV-1317

The StudentEducationOrganizationAssociation has been enhanced to include FullTimeHybridVirtualProgramParticipation. This update allows for the collection of student enrollment data in full-time virtual programs and introduces new calendar types and non-campus based instruction codes.

WSDEV-1377

The StudentEducationOrganizationAssociation now includes a new student characteristic #25 - PKChildOfLEAClassroomTeacher. This addition allows for better tracking of pre-kindergarten students with parents who are LEA classroom teachers.

TREX

WSDEV-1350

TREx 5.8 has been updated with general changes, including the addition of a new AcademicStatusType for Middle-School-Advanced-Math-Participation and renaming of the Gender field to Sex in StudentDemographicType. A new StudentDemographicType, PKChildOfLEAClassroomTeacher, has also been added.

TeamSupport Ticket

Compliance Reporting

WEBSMART-3021

A fix has been implemented to address missing ChildCountFunding codes in the StudentSpecialEducationProgramAssociation Entity. The issue affected a small number of student records, and steps have been taken to ensure proper coding and reporting of special education program associations.
