

Harris School Solutions has an issue tracking system to monitor program enhancements and defects. The WEBSMART numbers refer to the issues in that system that were resolved in this release.

To submit an idea for product enhancements/improvements, click [Here](#).

Technical Documents

Features denoted with  notates the feature was a Customer Idea. Features with a **See Tech Doc**, have a technical document available on Team Support

Bug Fix

Compliance Reporting

WEBSMART-3039

An issue with the EDFI Budget Ext picking up non-existent account codes has been addressed, preventing the reporting of incorrect budget amounts and resolving related fatal error messages in PEIMS.

WSDEV-1173

The EDFI PriorActualExt entity reporting will no longer generate records with zero ActualAmount, aligning with TEA guidance.

WSDEV-1430

The EDFI StaffSection reporting issue for PK and KG classes has been resolved. The system now correctly reports StaffSections based on the number of enrolled students and homeroom indicator status.

WSDEV-1431

The EDFI Student Special Education Program Associations end date reporting has been corrected to ensure accurate representation of program end dates across all levels.

WEBSMART-3037

The StudentSpecialEducationProgramAssociations entity has been updated to correctly include ChildCountFunding, MedicallyFragile, and Multiply Disabled information. The system now reports only SPEDProgramAssociationSet information that occurs during the current reporting school year, aligning with the new logic established for PEIMS Fall Submission.

Staff Reports

WSDEV-1387

The Employee Benefit Report has been updated to include termination for the school year plus one month for the previous month of the effective date

Student Reporting

WSDEV-1378

The FSP Program Detail report has been corrected to accurately display historical information, including Alt language programs and Bil/ESL information across all relevant grade levels.

TREX

WSDEV-1437

The TREx error related to invalid TX-PostSecondaryCertificationLicensureResultCode has been fixed, ensuring compatibility with the latest XSD file specifications

Comeback

Compliance Reporting

WSDEV-1389

The StudentSpecialEducationProgramAssociations have been updated to correctly include ChildCountFunding, MedicallyFragile, and Multiply Disabled information. The system now reports only SPEDProgramAssociationSet information that occurs during the current reporting school year, aligning with the new logic established for PEIMS Fall Submission.

Improvement

Compliance Reporting

WSDEV-1160

A new PriorYearSSAOrgAssociationExt Entity has been added to the system, enhancing the reporting capabilities for prior year Shared Services Arrangements (SSA) organizational associations.

WSDEV-1232

Changes have been implemented to the PriorYearLeaver entity to align the system with the latest EDFI 2026.2.0 specifications

WSDEV-1231

Changes have been made to the DisciplineIncident entity in EDFI 25-26 2026.2.0. The SafeSupportiveSchoolProgramTeamReview field has been moved from the DisciplineIncident entity to the StudentDisciplineIncidentBehaviorAssociation entity.

WSDEV-1234

EDFI 25-26 descriptor modifications have been implemented to align the system with the latest EDFI 2026.2.0 specifications

WSDEV-1318

EDFI 25-26 revisions to the CourseCompletion reporting logic have been implemented to align the system with the latest EDFI 2026.2.0 specifications

WSDEV-1311

The EDFI PEIMS Attendance process has been revised to include new entities, one for each cycle from 1 through 6, to handle the new attendance submissions. A new submission screen layout has been added to handle the six attendance submissions, improving the accuracy and efficiency of attendance reporting.

WSDEV-1370

The EDFI PostCertificationLisensureCodes and IBCVendorCodes that were marked incorrectly for Fall and Summer eligibility have been corrected.

WSDEV-1422

The EDFI StudentTitle 1 part A program Association has been updated to resolve an error that occurred during bulk delete operations. This fix ensures smoother data management and deletion processes for Title I program associations.

WSDEV-1159

The SSAOrgAssociationExt entity has been removed from the PEIMS Mid-Year submission to align the system with the latest EDFI specifications.

WSDEV-1314

YearsTRATeachingExperience and LEADeterminedTRAEligibility are now available in the HROS API V3 Staff Import

Student Management

WSDEV-1388

An automation for At Risk code 13 (residential treatment) has been implemented. The system will now automatically assign At Risk code 13 when a student is assigned to residential treatment ADA attribution codes 21-24, and turn it off when unassigned. Code 13 has been moved from annually assigned to system assigned.

New Feature

Student Reporting

WEBSMART-3041

The FSP Program Detail Report has been enhanced to include the TSIDSUID. This addition will facilitate easier cross-referencing of data when validating EDFI Data that uses UID, improving the efficiency of data validation processes

TeamSupport Ticket

Compliance Reporting

WEBSMART-3040

The EDFI Budget Ext has been updated to prevent the reporting of budget revisions dated after snapshot and unsubmitted budget revisions.
