Technical Documents

Features denoted with  notates the feature was a Customer Idea. Features with a **See Tech Doc**, have a technical document available on Team Support

Bug Fix

Compliance Reporting

WSDEV-1444

A fix has been applied to address the EDFI BilingualESLReportingPeriodAttendance Cycle 2 issue where certain student scenarios were not being reported correctly. The system now properly reports these scenarios for the affected students.

WSDEV-1456

A fix has been implemented for Edfi BudgetExt issue where both districts were being reported instead of only the selected district. The system now correctly reports budget records for the selected district only.

WSDEV-1445

A fix has been implemented for EDFI SpecialEducationProgramReportingPeriodAttendance cycle 2, which was not generating any records. This issue has been resolved to ensure proper record generation.

WSDEV-1459

An issue with EDFI SpecialEdProgramReportingPeriodAttendance that was not generating new records due to a calendar code change has been resolved. The system now correctly generates separate records for different calendar codes and instructional settings.

WSDEV-1452

The EDFI CTEProgramReportingPeriodAttendance has been updated to report the State Equivalent for CTEServiceIDDescriptor instead of the CourseId. This ensures compliance with the correct reporting format for CTE attendance.

WSDEV-1442

The EDFI FlexibleSpecialEducationProgramReportingPeriodAttendance issue of not generating any records has been fixed. This resolution ensures proper reporting of attendance for Flex Special Education students.

WSDEV-1447

The problem with EDFI Student Section records not generating at all for ECDS_KG has been addressed. This fix ensures that records are now being generated correctly for schools using generic grade level codes.

WSDEV-1458

Updates to the EDFI Viewer's Bulk Delete and FIND features now ensure that delete and search results correctly reflect the selected Attendance entity reporting period.

Documentation

Parent Portal

WSDEV-1455

The Parent Portal User Guide has been updated to include steps for the new Direct Access to STAAR scores feature. This addition will help parents navigate and utilize the new functionality effectively. [See Tech Doc](#)

Federal/State Regulation

Payroll

WSDEV-1449

The 2026 tax changes from Pub 15-T have been implemented. Updates include mileage rates 72.5 cents, FICA wage cap and excess cap \$184,500, vendor 1099 min \$2,000, and Federal tax table changes.

Improvement

Compliance Reporting

WSDEV-1436

The EDFI Bulk Delete functionality has been enhanced to limit the display of records to the district only. The system now allows deleting only instructional campuses while protecting administrative organizations. This improvement helps maintain the integrity of essential administrative data.

New Feature

Banking/Receipts

WEBSMART-3000

The bank reconciliation feature has been updated to include vendor names for epays. This improvement will be reflected in various reports, including the Banking Account Reconciliation, Regions Extract, and Warrant Register.

Parent Portal

WPP-13

A new feature has been added to allow direct access to STAAR scores through the parent portal, as per TEA requirements. This enhancement will provide parents with easier access to their children's STAAR test results.

TeamSupport Ticket

Compliance Reporting

WEBSMART-3047

The issue with the EDFI Payrollex not picking up current payroll extension records has been fixed. The system now correctly returns multiple payroll records within the snapshot period, resolving PEIMS fatal errors.

WEBSMART-3048

The Role ID code table in HR has been updated to include the missing 088 code for Resident Teachers. This addition allows for proper reporting of Resident Teachers in staff assignments. To report Teacher Residents in scheduling, continue to use the Role ID _087R.

Enrollment

WEBSMART-3043

The issue causing the "Object Not Set to an Instance of an Object" error during the creation of new ADA entries has been fixed, and data entry is now functioning smoothly.

W-2

WEBSMART-3051

The W2 Forms Extract errors preventing file submission to the BSO (Social Security) site have been resolved. The system now generates W2 extract files that include the required new Employer fields to pass AccuWage compliance checks, allowing schools to successfully submit their W2 files.
