Technical Documents

Features denoted with notates the feature was a Customer Idea. Features with a **See Tech Doc**, have a technical document available on Team Support

Bug Fix

Compliance Reporting

WSDEV-1379

An issue with the EDFI StudentEducationOrganizationAssociation has been resolved, allowing for proper reporting of multiple period instances for StudentCharacteristics. The system now correctly handles scenarios where a student stops and restarts a service within the school year, avoiding duplicate errors and ensuring accurate reporting of date ranges

WSDEV-1475

EDFI StudentAcademicRecord has been updated to resolve level 1 errors related to blank values for the EndorsementPursuing Descriptor. A Default value of 0 will be used, ensuring compliance with reporting requirements.

WSDEV-1465

The EDFI StudentAcademicRecord has been updated to resolve level 1 errors related to missing data in the GraduationProgramPlanSet, particularly for non-high school students. Default values have been implemented for required data elements, ensuring compliance with reporting requirements.

WSDEV-1463

The FIND tab in EDFI BasicReportingPeriodAttendance has been fixed. The search functionality now correctly filters results based on the entered student UID, returning only the specific student record instead of multiple unrelated records.

Student Reporting

WSDEV-1450

The Career & Technology Contact Hour Detail Report has been corrected to properly handle changes in CTE status within a reporting period. The fix ensures accurate reporting of student enrollment in different course parts, reflecting the correct CTE status and present days for each period.

WSDEV-1441

The Special Education Contact Hour Report has been fixed, ensuring correct reporting of instructional settings across different cycles. The system now accurately reports the appropriate instructional setting codes (42 and 41) for each cycle as required.

Improvement

AP/Purchasing

WSDEV-1464

The E-Pay File type template, "E-PAY", has been modified to include the District name. This change will now appear In the AP Check Run, EPAY preview file, EPAY_xxxx.PDF.

Enrollment

WSDEV-1469

Harris will participate in the Enrollment Tracking Pilot starting in February 2026, which involves modifications to the Enrollment Event Tracking functionality. Two new dropdowns for enrollment tracking verification will be added to the ADA Enrollment tab in Student MGR, allowing users to select options NA, Verified, and Calendar. The EDFI StudentSchoolAssociation will be updated to report the new information.

TeamSupport Ticket

Compliance Reporting

WEBSMART-3053

An additional data element, Grade level, has been added to the local key for SPED Attendance. This will resolve issues with posting SPED Attendance records for students whose grade levels have changed within an attendance cycle. This enhancement to improve how grade level changes are being handled is particularly beneficial for schools using non-standard academic calendars.
